REMARKS

The Applicants appreciate the Examiner's thorough examination of the subject application. Applicants request reconsideration of the subject application based on the following remarks.

Claims 94-96 are currently pending in the application. Claims 1-93 and 100-107, which are directed to non-elected subject matter have been cancelled. Claims 97-99 have been cancelled in part because they appear to duplicate the subject matter of claims 94-96. No new matter has been added by the amendments to the specification or the claims.

In response to the Restriction Requirement, Applicants elect Group VII, directed to claims 94-99, as that Group is defined in the Office letter. Applicants expressly reserve the right to pursue the non-elected claims in one or more divisional applications.

Responsive to the species election required by the office action, Applicants select methods of treatment using ginseng components for initial examination. This election is made with the understanding that upon allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim.
